

NAZRIN NASIROVA

PRODUCT DESIGNER / DESIGN ENGINEER

Paris, France · +33 6 05 51 79 66 · nazrin.nasirovaa@gmail.com · nasrinette.github.io · linkedin.com/in/nazrin-nasirova

PROFILE

Product Designer with hands-on experience across the full design cycle: **user research, wireframing, high-fidelity prototyping, and usability testing**. Currently at [Wiremind](#), turning user insights into validated designs through rapid **Gen AI**-aided iteration. Frontend background (**React, Tailwind**) means I design with implementation in mind. Seeking a **CDD or CDI as Product Designer / Design Engineer**, starting **October 2026** in France (open to relocation).

DESIGN SKILLS

Research & validation: User Research & Personas · User Interviews · Usability Testing · A/B Testing · Accessibility

Design & prototyping: Wireframing · Interactive Prototyping · Interaction Design · Data Visualization · Gen AI-supported design

Product: Requirements Definition · Prioritization · Roadmapping · Sprint Monitoring · Agile / Scrum

Tools: Figma · Adobe XD · Framer · Maze · Miro · Canva · Notion · Lovable · Vibe Coding · Webflow · Make.com · Claude Code · GitHub · HTML/CSS · React.js · Tailwind

EDUCATION

MSc in Computer Science: Interaction, Graphics & Design

Institut Polytechnique de Paris · CGPA 16.5/20 · Sept 2024 - Sept 2026

BSc in Computer Science

Université de Strasbourg (UFAZ) · CGPA 14.5/20 · Sept 2020 - July 2024

EXPERIENCE

Product Owner UX (Internship)

[Wiremind](#) · Paris, France · March 2026 - Present

- Created **20+ interactive prototypes** and design iterations using Gen AI tooling.
- Conducted **user interviews with 6 participants** to help define AI-based prototyping workflows.
- Built a **sprint monitoring dashboard** with **5 data visualizations**.

Frontend Engineer

[Polygraf AI](#) · Baku, Azerbaijan · Jan 2024 - Aug 2024

- Implemented a library of **reusable, responsive React components**.
- Developed an AI detector browser extension and redesigned an e-commerce extension; launch event drove **150+ new installs**.
- Organized a data-labeling competition, gathering **10K+ samples** from **100+ participants**.

UI/UX Designer

KTLab, Cybersecurity Lab · Baku, Azerbaijan · May 2023 - Sept 2023

- Created and tested prototypes for a cybersecurity learning app.
- Ran usability sessions; iterated **5+ design versions** based on findings.

SELECTED PROJECTS

[Interactive Menu App](#): user interviews, personas, and usability testing with **20+ users**; **85% accessibility rating**.

[UX Study – Goodreads](#): task-based study with **16 users** (surveys + cursor-tracking); surfaced key book-recommendation issues.

[Coffee Data Visualization](#): **11 interactive visuals** on global coffee trade, production, and consumption.

LANGUAGES

English (C1, [IELTS 8.0](#)) · French (B2, in progress) · Turkish (fluent) · Azerbaijani (native)

ACHIEVEMENTS

2nd place, [Huawei Tech Arena](#) Hackathon (Finland) · [TotalEnergies](#) E&P International Scholarship Program · Summer School at [Université de Strasbourg](#) (top 5 of cohort).

VOLUNTEERING

[Khan Academy](#): translated educational content (ENG → AZ) · **Nature Friends Az**: local environmental initiatives · **[UFAZ Student Council](#)**: mentored first-year students.
